When founding Butler Partners Regional at the start of 2015, we chose Rockhampton as the most logical headquarters location for our operations. Advance Rockhampton provides great assistance and support as our business seeks to maximise local content and develop employment opportunities for the Rockhampton region. Being in Rockhampton has allowed us to access significant highway construction projects as well as the mining sector and defence industry.

Hastings Deering has been operating from our current site in Rockhampton since 1969. With 50 years of history we have been a part of and supporting Rockhampton's commercial, community, sporting and cultural growth. Employing more than 500 employees, we have stood shoulder to shoulder through triumphs and tribulations: sharing everything that is the unmissable spirit of Rockhampton. It is this spirit that is reflected in our work for our construction, resource and local government customers and our commitment to training over 430 apprentices to ensure Rockhampton remains a skills hub and a centre of excellence for Central Queensland region.

“Rockhampton is at the heart of the resource industry, with supply chains throughout the Bowen, Galilee & Surat Basins. The number of quality, experienced and professional manufacturers, construction, maintenance and civil businesses in our city is a credit to our regions resilient and tenacious past. Rocky businesses are renowned throughout the mining industry for our passion and quality workmanship”

Manuplex continues to grow its business with the top mining companies of the world. Moving our operation to Rockhampton has been a huge step forward. We have been accepted and supported by the community and also the Rockhampton Regional Council. Manuplex looks forward to leveraging our central location to further stamp our presence in the coal mining sector.
